Ranking List of Academic Book Publishers

This ranking list made reference to the rankings used by the Australian Political Studies Association (APSA)

<http://www.raw-rhodes.com.au/wp/wp-content/uploads/2008/04/rqf-publishers-ranking-2007.pdf> as the first point of internal ranking of academic publishers, supplemented by publisher rankings developed by the Socio-Economic and Natural Sciences of the Environment (SENSE) <http://www.sense.nl/uploads?&func=download&fileId=855> General Board, then the ranking system of the Centre for Resource Studies for Human Development (CERES) of the University of Utrecht http://ceres.fss.uu.nl/component/option,com_wrapper/Itemid,7/. There was a high level of consistency in the ranking of Book Publishers among the three systems. The higher rank for a Book Publisher is used.

SENSE RANKING OF ACADEMIC PUBLISHERS

For book publishers there is no internationally accepted system of ranking (as far as we know). CERES used the CERES Publication Accreditation Committee as the peer group to

make a start ourselves. The SENSE Board has decided to add a few publishers to the ABC-list (*in italics*).

I refereed book publications:

A: Refereed book publications published by the world top of publishers

B: Refereed book publications published by the world's semi-top of publishers

C: Refereed book publications published by other publishers

II non-refereed book publications

D: published for an academic public (professional publications)

E: mainly published for a non-academic (general) public
